Parent's Guide to Social Networking - This manual provides information on social networking websites such as MySpace.com, Facebook.com, and Xanga.com. It describes the nature and content of these sites and explains how to find out if your child has a social networking site profile and how to delete it.

Internet Lingo Dictionary - Frequent Internet users, including many young people, have developed their own shorthand language to save time typing and hide the real meaning of their messages from others. The dictionary is a parent's guide to decode the acronyms, abbreviated text, and emoticons used in chat rooms, instant messages, text messaging, and blogging.

Purchasing Medicines Online - Food and Drug Administration Public Affairs

Internet Safety - A guide for safe travel through the virtual world

▪ **Hot Off the Press**

Featured Video

Totally Disgusting Tobacco Gross Out Video

As the title suggests, this video goes for the gross-out factor, presenting students with a graphic look at all things vile and disgusting (and there are many!) about using tobacco products. The story revolves around Josie, a middle school student who is preparing a video on the dangers of tobacco use for a health class assignment, despite the disbelieving attitude from her peers—including her boyfriend, Miguel, a smoker himself. As she develops her video project, she shows her friends clips of hairy tongues, yellow teeth, dripping phlegm, oozing tar, diseased lungs, laryngectomies (neck breathers), wrinkled skin, cancerous tumors and more, until they just can't take it anymore. Not for the fainthearted, this video's imagery will linger long in students' minds and remind them to never consider using tobacco products. (2007)

18 minutes. Suggested for grades 5 - 9.

DVD-3090
