This Learning Agreement serves to articulate activities that support the CSWE’s competencies as outlined in the 2015 Educational Policy and Accreditation Standards. The Agreement represents the learning objectives of both the school and the student, and it is a reflection of the student’s year in the field. These activities are site-specific, measurable, and individualized with the goal of promoting the student’s successful development of professional competencies.

This plan is negotiated between the student, Agency Field Instructor, and Agency Task Supervisor (where applicable), and provides the basis for evaluating the student’s professional development. The student’s plan should be comprehensive, with activities added as the year progresses, such that by the end of the year all of the student’s activities are represented. Faculty Field Liaison consultation is available as needed to support the development of this plan.

This plan should be completed no later than the 3rd week after the student’s internship begins. At the beginning of the second semester, the plan is updated to reflect changes and/or new opportunities.
